## *What the World Needs to Know...*

Medicinal mushrooms are on the horizon of major medical breakthroughs. Health articles around the globe state that recent testing is confirming what has been long known by Traditional Chinese Medicine, that medicinal mushrooms contain powerful anti-viral and anti-bacterial properties, and some even anti-tumor and anti-cancer compounds. The National Health Institute is even funding some of the screening, says *Newsweek Magazine* in an article titled "***The Magic of Mushrooms***", to fight the concerns of SARS, the West Nile Virus and the Bird Flu.

*"It's completely irrational that we haven't looked here before," says Dr. Andrew Weil, the nation's leading proponent of integrative medicine. "The greatest success of the pharmaceutical industry in the 20<sup>th</sup> century" antibiotics, came from molds, which are closely related."*

The world is taking notice of the natural healing powers of medicinal mushrooms and as they do, they are also learning about Chaga, the most revered of all medicinal mushrooms.

***The timing could not be better to bring Chaga to the world market!***

The time is now to take Chaga to the global community. "***The King of Herbs***", "***A Gift from God***", "***The Mushroom of Immortality***" and an entire program designed to bring you ***A Better Life***.
